

Commitment to the Survivors of NS Persecution in Poland – Developing and Implementing Innovation in EVZ-funded projects

The Foundation “Remembrance, Responsibility and Future” (EVZ)

In remembrance of the victims of National Socialist injustice, the Foundation EVZ works to promote human rights and understanding between peoples. The Foundation is thus an expression of the continuing political and moral responsibility of the state, the private sector and society as a whole for Nazi injustice and towards the victims.

The Foundation supports international projects in the following areas:

- A critical examination of history
- Working for human rights
- Commitment to the victims of National Socialism

The Foundation EVZ was established in 2000, primarily to make payments to former forced labourers. The payments programmes were completed in 2007. The Foundation’s capital of EUR 5.2 billion was provided by the German Government and German industry. A total of EUR 358 million was set aside as Foundation capital in order to finance project support. The Foundation finances its long-term funding activities out of the income generated by this capital.

Commitment to the victims of National Socialism in Poland

The surviving victims of National Socialism are now very elderly. Many suffer extreme material hardship and are socially isolated. In Poland, the Foundation supports initiatives that strengthen local and national efforts to help victims of forced labour and other National Socialist injustice. It funds model projects that offer a decent standard of social care, support intergenerational dialogue and anchor responsibility in society for the concerns of the elderly and their integration into the community. At present, the Foundation and its partners are adjusting to the changing circumstances of the ageing survivors, whose needs are making ever greater demands on our range of our activities, professional experience and resources. New ideas, concepts and cooperation networks are required to enable our partners to operate more independently in the long term and to become less dependent on Foundation funding.

Objectives

- At least five current EVZ partners develop and implement new ideas, concepts and tools in their work with survivors of NS persecution.
- EVZ partners cooperate more actively with each other and with local partners.
- Three new ideas, tools or concepts are created and implemented in order to improve the support provided to survivors.

Tender procedure/Call for competition

Lot 1. Raising Hidden Treasures – Innovation process with EVZ Partners
