The CultureLab Foundation is developing a nationwide database of facilities that actively help refugees from Ukraine. Our portal (Mapuj Pomoc - Help Map) was created with the following in mind:

- 👉 people in need who want to find assistance centers quickly and easily;
- 👉 institutions which want to inform about their activities, are looking for support and want to be more visible to large organizations.

If you are interested in the above data, please write to us. We provide data based on: provinces, cities, categories of help offered or needed, types of institutions, age of beneficiaries.

If you want to support local institutions in various parts of Poland that provide a specific type of assistance, such as food, education, IT or psychological assistance, please contact us.
