Karina demonstrated excellent motivation and dedication to the process and produced valuable deliverables after consistently investing a lot of time and energy in the work. Karina was extremely reliable, proposing alternative solutions so as not to let the team down. We would like to see Karina in the future developing her confidence, showing her skills to others and taking a stand in the team, as Karina is clearly very creative and has excellent ideation skills. Karina showed that she can be very proactive in Slack and Miro and contribute ideas, thoughts and planning in the online space. Karina has the ability to empower any future team she is part of with her kindness and engagement. Her skills seem particularly valuable for interdisciplinary project teams or a junior project manager role in the short-term and a senior project manager in the long term.
